OBJECTIVE

Lead a team in building the next generation of online tools and systems, create the future, and have fun doing it.

SKILLS

WEB TECHNOLOGIES:

JavaScript, MySQL, CSS, XHTML, DHTML, PHP, XML, JSON, CMS, Object Oriented Code

TECHNIQUES:

Security audit & correction, speed up load times, design scalable architecture, unit test, document code inline and practices internally

SOFTWARE:

Zend Studio for Eclipse, Visual Studio .NET, Adobe [Flash, Dreamweaver, Photoshop, Illustrator], SQL Server, Subversion, WordPress CMS, Drupal CMS, PGP/GPG encryption, vi(m), Linux/Unix command line.

CODE LIBRARIES:

jQuery, ExtJS, Prototype, MooTools, CodeIgniter

OPERATING SYSTEMS:

GNU/Linux: Ubuntu, Debian, Slackware, Knoppix, FreeBSD
MS Windows: Vista, XP, 2K, 98
Macintosh: OS X, OS 9
Other: VMware Fusion, DOS, Unix

LANGUAGES:

Programming: JavaScript, PHP, Perl, ActionScript, SQL, Unix Shells, XHTML, CSS, XML

Human:

English – Fluent (Native)
German - Conversational
Chinese (Mandarin) - Beginner

EXPERIENCE

10.2008-Present **Avlan, LLC** (stealth startup)

SENIOR WEB DEVELOPER: JavaScript, PHP, Architecture, Unit Tests

CHALLENGE: Create a dynamic, unit test ready codebase and developer practices to support a localizable multi-million user system

SOLUTION: Use CodeIgniter, PHPUnderControl, jQuery and the standard LAMP stack. Formulated initial best practices & led developers in writing tests, documenting code & practices.

01.2001-Present **ShadowPuppet, LLC**

OWNER / CTO: Flash, PHP/MySQL, XHTML/CSS, JS, CMS

Example >> Sally Bjornsen Represents: <http://sallyreps.com>

CHALLENGE: Rewrite a Flash driven site to be customizable, extensible and driven from an easy to manage admin system.

SOLUTION: Created a private CMS using a MySQL database and PHP to dynamically display data and maintain all of the site content.

07.2007-02.2010 **RIPL Corp:** <http://ripl.com/root>

SENIOR WEB DEVELOPER: JavaScript, C#, Security, SVN, AWS, VMs

CHALLENGE: Turn an insecure, outsourced social network into an extensible, scalable, fast, secure service. Manage 3 developers. Agile.

SOLUTION: Rewrote front-end using ExtJs in OOP JS, secured middle tier & built robust cache systems. Architected AWS EC2 for v3.

01.2008-12.2009 **Seattle Central Community College**

INSTRUCTOR: Web Development Instructor & Guest CMS Lecturer

CHALLENGE: Teach 15-25 person classes on Web Development.

SOLUTION: Wrote complete curriculum for classes: <http://ipirates.net>

05.2005-08.2007 **www.OwnYourPhone.com**

CTO / WEB DEVELOPER: PHP/MySQL, Flash, AJAX, Design, Support

CHALLENGE: Generate ringtones from user supplied music files.

SOLUTION: Debian Linux server with a PHP/MySQL/Ajax driven site, a Flash tool for cutting mp3 files and a mobile phone delivery system

06.2005-11.2006 **Sublime Media, LLC**

WEB DEVELOPER: Flash, ActionScript, JavaScript, XML, Illustrator

CHALLENGE: Create eLearning training modules for Microsoft, supporting xml localization & content filtering by audience.

SOLUTION: Designed with Illustrator. Included XML data & CSS styles in Flash videos, using JavaScript to filter content for specific audiences.

09.2001-02.2002: Infogrames North America - TECH SUPPORT REP.

09.1998-07.2005: Misc. Restaurant Work – SERVER
